

Follow these steps to disable the Compatibility View / Mode setting in IE 10 and IE 11

Step 1

For IE 10 users:

- Open up Internet Explorer (IE 10)
- Click on the Tools menu tab
- Select the Compatibility View settings option

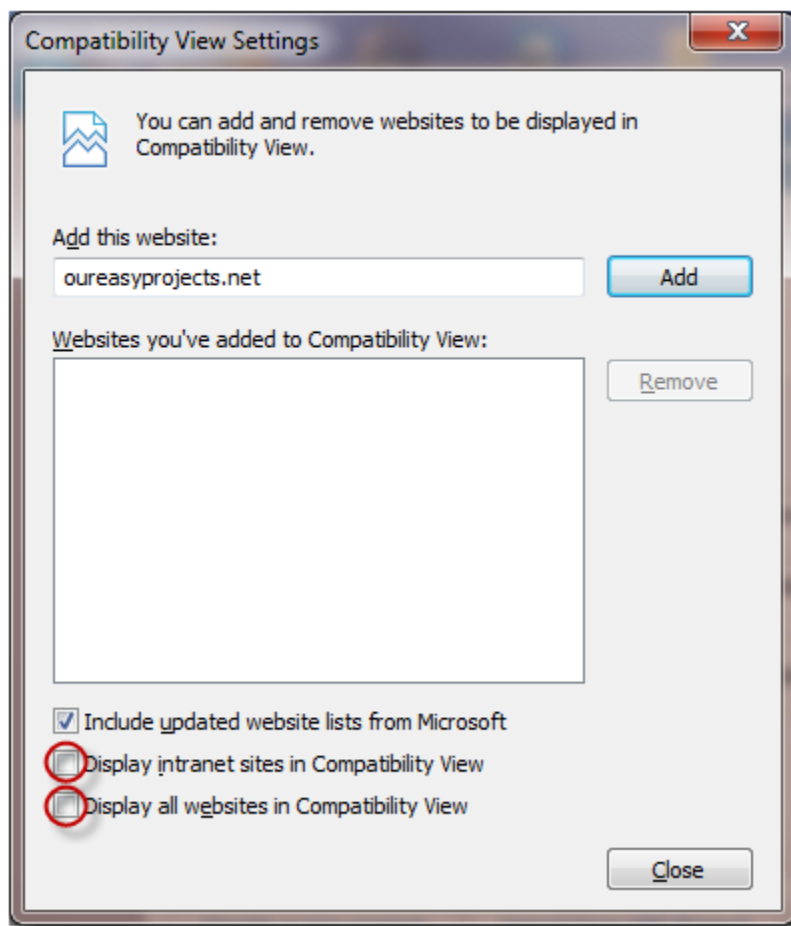

For IE 11 users:

- Open up Internet Explorer (IE 11)
- Press the Alt key on your keyboard, this will make a menu bar appear
- Click on the Tools menu tab
- Select the Compatibility View settings option

Step 2

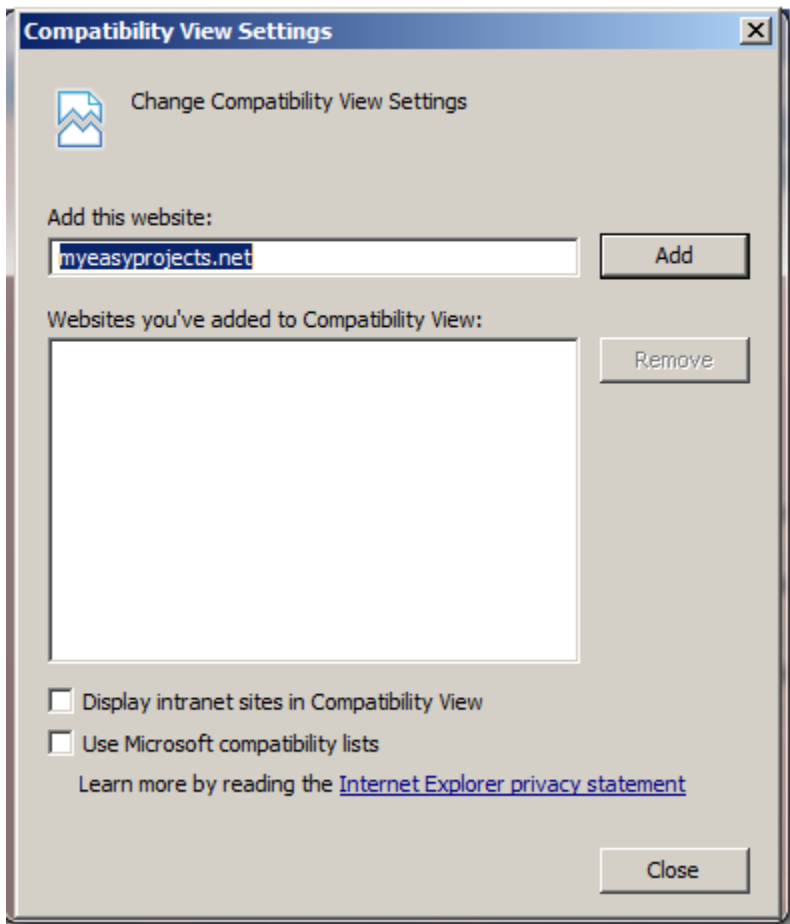

If you are using IE 10, you will get the following "Compatibility View Setting" page

- Uncheck the "Display all websites in Compatibility View" option
- Do not add the training to the Compatibility View box

If you are using IE 11, you will get the following "Compatibility View Setting" page

- In IE 11, the "Display all websites in Compatibility View" option is not available
- Do not add the training to the Compatibility View box

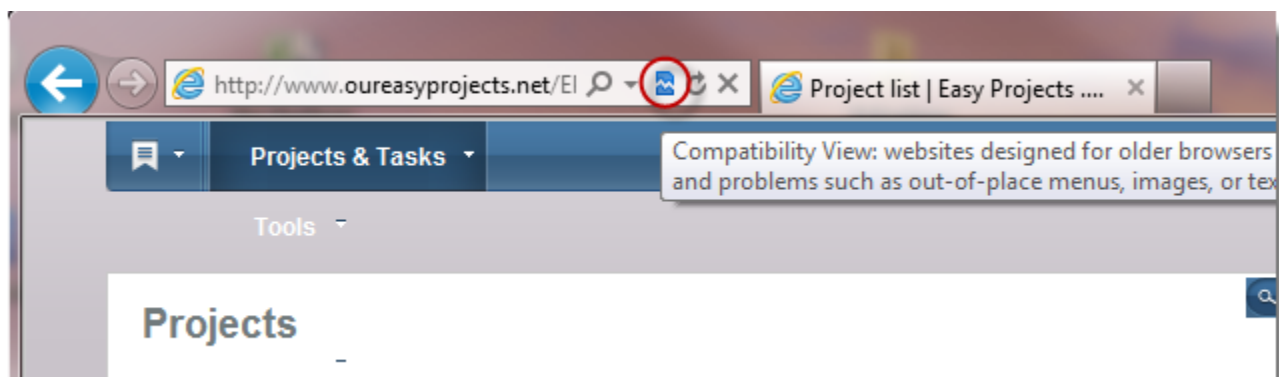

If you are using IE 8 or 9

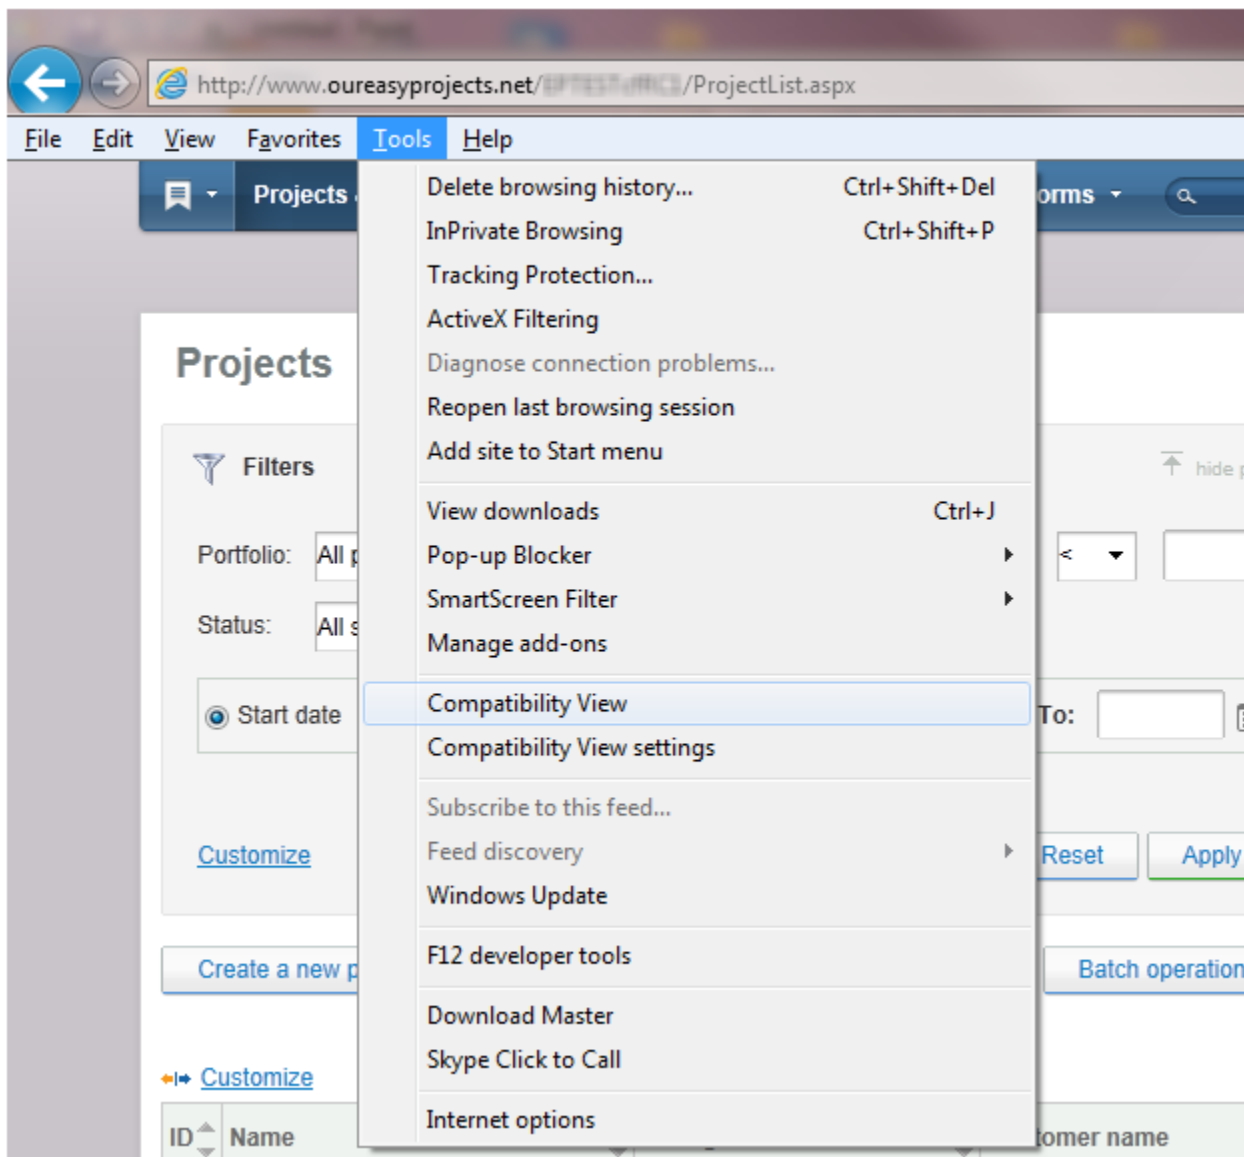

There are two ways how Compatibility View mode can be turned off:

- * from Internet Explorer address bar
- * from Internet Explorer 'Tools' menu

The quickest way is to click on the Compatibility View icon on the address bar:

The same result can be achieved through the 'Tools' menu (accessible by the Alt-T key combination):

Please be aware that 'Compatibility View' option should be unchecked (no tick should be present next to this option).
